Gcse Mathematics B Linear Ocr

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Higher tier specification for first teaching from 2015, this Problem-solving Book contains a variety of questions for students to develop their problem-solving and reasoning skills within the context of the new GCSE curriculum. Suitable for all Higher tier students, this resource will stretch the more able and provide support to those who need it. Questions with worked solutions will help students develop the reasoning, interpreting, estimating and communication skills required to help them effectively solve problems. Encouraging progression by promoting higher-level thinking, our Problem-solving Books will help prepare students for further study.

GCSE Maths OCR Linear Revision Guide - Foundation The Basics

Produced in partnership with OCR, this book covers the whole GCSE maths course for Higher tier students.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Foundation tier specification for first teaching from 2015, our Homework Book is an ideal companion to the OCR Foundation tier Student Book and can be used as a standalone resource. With exercises that correspond to each section of the Student Book, it offers a wealth of additional questions for practice and consolidation. Our Homework Books contain a breadth and depth of questions covering a variety of skills, including problem-solving and mathematical reasoning, as well as extensive drill questions. Answers to all questions are available free on the Cambridge University Press UK Schools website.

This series is an excellent preparation for the linear and modular mathematics GCSE specifications offered by AQA, Edexcel and OCR. Higher 1 is the first of two main books for the Higher tier. It prepares up to grade B and is suitable as the year 10 text for students who have followed any 'extension' course in key stage 3. Alternatively it can follow on from Higher transition, a preparatory key stage 4 text for students who have followed a 'core' key stage 3 course

New and updated resources tailored to the 2015 Advancing Physics specification in partnership with OCR. With new accessible format and features throughout, this Student Book retains the ethos of Advancing Physics while providing full support for the new linear qualification.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. This outstanding new series provides both student and teacher with comprehensive assistance with the GCSE OCR Syllabus A (1662). Written by highly-respected authors, in the style of the OCR examiners, every aspect of the syllabus is covered in detail. The Intermediate Homework book is a pack of graded exercise questions to accompany the text book. It directly supports the OCR GCSE Mathematics Intermediate Specification A (1962). The OCR Mathematics Series will guide the student and teacher through the syllabus in a systematic and concise fashion, and will become a vital element of student success.

New and updated resources tailored to the 2015 Advancing Physics specification. With new accessible format and features throughout, these resources retain the ethos of Advancing Physics while providing full support for the new linear qualification. This Student Book contains two year's worth of content and covers the full A Level qualification.`

Exam Board: OCR Level: GCSE Subject: Mathematics First Teaching: September 2015 First Exam: June 2017 ENDORSED FOR OCR Build your students' knowledge and understanding so that they can confidently reason, interpret, communicate mathematically and apply their mathematical skills to solve problems within mathematics and wider contexts; with resources developed specifically for the OCR GCSE 2015 specification by mathematics subject specialists experienced in teaching and examining GCSE. - Supports you and your students through the new specifications, with topic explanations and new exam-style questions, written in line with the new assessment objectives. - Measure progress and assess learning throughout the course with graduated exercises and worked examples. - Enables students to identify the appropriate remediation or extension steps they need in order to make the best progress, through easy to follow progression strands that help to identify gaps in learning. - Supports all abilities and provides full coverage of the GCSE grade range with three books, meaning that content is focused at the right level for each student. - Offers a seamless five year progression when used in conjunction with KS3 Mastering Mathematics

This series is an excellent preparation for the linear and modular mathematics GCSE specifications offered by AQA, Edexcel and OCR. The books have been especially praised for helping raise the confidence of students, who as a result have a better understanding of the mathematics and a clearer self awareness of what they've learned. The book continues the confidence-building style of the preceding books, approaching the hardest topics in a straightforward way that takes account of students' known learning difficulties and matches the level of demand of the exam papers.
